PROFESSIONAL EXPERIENCE

Frontend Developer & Lead Designer

2024 – Present

Startup Company (Salis Ecosystem)

Architected and designed the frontend interfaces for a comprehensive suite of enterprise applications:

- **Salis IAM (SSO):** Developed a centralized Single Sign-On application integrated with Odoo, allowing secure, seamless user authentication across all company applications.
- **Business & Employee Salis:** Built a B2B SaaS frontend for companies to manage subscription plans and invite employees, alongside an internal dashboard (Employee Salis) for task management and HR workflows.
- **Aqar Salis:** Developed a prop-tech platform enabling users and companies to trade fractional property shares, buy, and rent, featuring isolated layouts and portals for B2B and B2C users.
- **Tatweer & Salis Digital:** Led UI design and development for modern web platforms featuring Dark/Light mode toggles, smooth animations, and bilingual (AR/EN) support for pixel-perfect cross-device compatibility.
- **Siyana & Sada Salis:** Delivered tailored frontend solutions for a maintenance/service platform (Siyana) and a specialized medical application (Sada Salis).
- **Salis Order Point:** Engineered a highly interactive, real-time order management dashboard focused on fast user-friendly workflows.
